Glenn,

I copied the photos to the shared drive (G:\MISC\ENFO\Glenn's Photos) so you can use it in your report. That way, you can manipulate and put in your own captions.

Chun

Chun –

Could you please help me print out my photos of GH Dairy. I don't have a card reader. You have a copy (download) from my memory card. My GH Dairy #1 photos are as follows:

Frame#/ Caption to be shown below each photo:

- 0177/ Well-graded corrals. No manure piles noted.
- 0178/ Manure solids applied to field on N.E. section of facility up to 6" depth covering sandy base.
- 0179/ Settling Pond (also referred to as a catch basin or evaporation pond) #1
- 0180/ Settling Pond #2
- 0181/ Settling Pond #3
- 0182/ Lagoon #1 with no pond marker.
- 0183/ Lagoon #2 with pond marker observed at west end of lagoon.
- 0184/ Lagoon #3 is dry and unused. No pond marker noted.

Thanks Chun. I'll add your captioned color photos to my inspection report for GH Dairy #1.....attached to this e-mail. We can discuss next week when we meet ....how we can automate this info to create an AO. Thanks.

Glenn
